

## Project Update: September 2012

1. In September 2012 we (Giorgi Kirkitadze, George Japoshvili, Mirian Nozadze) visited all schools and conducted field trips with an each project participant school.
2. With school children's participation we made description of different plots and analysed current condition of studied locations.
3. Pupils were trained how to measure, write and then analyse data.
4. We gave some tasks to pupil to write some ideas and opinions about project topic.
5. We made a plan for next visit to present preliminary data in all participant schools
