

### **Project Update: April 2013**

At the moment we have almost finished surveying the top chefs of Lima, more than 50 restaurants from all Lima have participated and a small focus group with chefs was done.

Thanks to Cayetano Heredia volunteers, this success has been possible. There are always some barriers, like owners of the restaurants denying our entry or chefs who refuse to participate. However, the response and willingness from chefs to achieve a sustainable gastronomy have been amazing!
