

Project Update: April 2017

Meeting with Forest Officials

We have spent the whole month conducting meetings and several discussion sessions with the forest officials of north-east Bangladesh where three of our study sites are located. We have submitted our permission letter to the range office of Patharia Reserved Forest and Rajkandi Reserved Forest.

Meanwhile, we met with Mr SM Golam Mawla, Divisional Forest Officer, Wildlife Management and Nature Conservation Division, Chittagong about our pangolin survey in south-eastern part of Bangladesh.

As a part of the Bangladesh Forest Department permission letter we have to conduct meeting with all forest office located within our study site before the field survey.
