

Project Update: December 2005

The publication of another article in 'Agro-van', a local daily dedicated to agriculture and forestry (India's first agro daily), showing how their efforts have reached the grass roots.

Over 200 phone calls today (from different areas of Maharashtra state) from farmers and private cultivators asking for booklet that we have prepared. Read the article at <http://www.agrowon.com/agro/agrowon/rightframe.html>

Specimen of Northapodytes.
