

**Project Update: December 2015**

To date we have registered over 1500 mammals that have been killed.

They have joined the project several persons of society who happen to us animals that records information different routes in the country.

The data put them in the online map (<https://www.google.com/maps/d/u/0/viewer?mid=z4rEFdIaFT0g.kwM2IHv2BXp4>)

He also began to develop a mobile application with the objective of facilitate registration by person.

Then, in November I was presented the project at the XXVIII Argentine Conference Mammalogy in Santa Fe, Argentina

We are also working with Brazil in organizing the First Congress of Biodiversity and road infrastructure to be held in October 2016 in Brazil (<http://www.cibiv.com/>).

*Euphractus sexcinctus*

*Lepus europaeus*

*Hydrochaerus hydrochaeris*

Removal of animals route
