

Project Update: January 2014

1. We have initiated environmental awareness programme in: (i) Government High School, Raila; (ii) Government High School, Shanghar (iii) Government Senior Secondary School, Sainj; and (iv) Government Senior Secondary School, Shansher.
2. In each school 5-days training programme was carried out.
3. From the above-mentioned schools, 26 students are selected and have been under training in environment monitoring (which includes bird identification, bird surveys using variable radius point count method and vegetation sampling).
4. Out of 26 selected students, 15 boys and 11 girls registered themselves for this project and got initial training.
5. During the field trip, each student recorded an average of 26 bird species and 158 individuals.
