

## Project Update: November 2015

The project is located in three sites - Sto Tomas, Camdas and in Tuding. Camdas is part of Baguio City and the other two are in Benguet. Sto Tomas in Tuba and Tuding is in Itogon Municipality. The main site however is in Tuding where the nursery is being established. I will be sending in a separate mail initial activities for the nursery establishment. Tuding is also the site for the reforestation project. In Sto Tomas and in Camdas, it is both a watershed area.

### Sto Thomas

### Camdsas

### Tuding
