

Project Update: May 2017

Questionnaire survey has been conducted for 50% of the respondents from Eusu and Katsho County. Educational awareness programme was conducted by visiting each constituency in each county. During the awareness program participants were provided with the refreshment and working lunch. Educational conservation awareness program in the rest of the constituency will be carried in the following days.

Educational conservation awareness program towards local farmers

Left: Focused group discussion on human black bear conflict. Right: Providing working lunch to the participants.

Village in project site.
