18. Plantation in the village of Moti-Virani = 1000

---

Total plants planted till 10th August 2007 = 6750 Plants

Six thousand seven hundred fifty plants planted so far

---

Plantation work is in progress – We have received unexpectedly good rains (21 inches so far for the monsoon season). Good thing happened was as we did plantation it rained. We expect a very good result of for plants growth and survival.

Plantation of *Salvadora persica* is being carried out in Banni area in as the road are now open in the saline flat country which is flooded in many area presently due to heavy rains.

Vithon village High School will be covered for plantation of native trees. Many other small to big village schools will be covered for plantation.
