

Project Update: August 2017

Here are some of the photos of my presentation on snakes and their conservation in Rupandehi District, Nepal during the 1-day workshop conducted by Epidemiology and Disease Control Division (EDCD), Zoonosis Department, Kathmandu at Kavrepalanchok, Dhulikhel.

And also, I have given snake, snakebite and snake conservation awareness programme at Mandala Theatre, Nepal on 28th July 2017 in the biggest snake festival of Nepal "Nagpanchami" on which day many Nepalese people worship snakes. In that programme, more than 50 theatre personalities were present. During that programme, I also presented my work on snakes and their conservation in Rupandehi District, Nepal which was funded by RSG last year.
