

## Project Update: March 2009

The RSG follow up grant work in Kutch is going on very well and we have already completed the plantation of 12000 saplings of *Salvadora persica*, *Acacia nilotica*, *Tecomella undulata*, *Cordia rohtii*, *Neem*, *Delonix regia*, and other 5 species of plants in the Schools and in the desert areas of Kutch.

We have organised 8 nature education camps and only two nature camps are remaining, we will be organising the remaining camps in March 2009.

The response of Nature education camps in Moti-Virani, Nani Virani, Sukhpur, Devisar, Rameshwar, Mangvana, Varamseda, Schools was very good, The plantation in Schools have now grown up and the Saplings planted last year are now 4-6 feet tall. The plantation in desert area is also doing well with a success varying from 50-70 %.
