

## **Project Update: December 2008**

In December 2008, we carried out the following activities:

- Selected propagules of mangroves from Can Gio District Ho Chi Minh City and transferred to the project area (Cam Ranh, Khanh Hoa).
- Prepared panel for marking the project areas.
- Selected local communities for participating in project activities.
- Trained the local communities to plant propagules.
- Planted the propagules at the project areas (about 6 ha).
