

Project Update: October 2010

Nature Palace Foundation was presented with Environmental Advocacy Award. Basing on our activities at Mabamba bay in advocating for benefit sharing, sustainable access and Resource Conservation, Advocates for Environment and Development(ACODE) and The Resource Access Initiative (TAI) presented the award to Nature Palace Foundation in a function marking TAI's tenth year anniversary and Global Gathering in Kampala. This is an award we owe to RSG who supported our Mabamba projects.

Green Footprint is now on YouTube
