Wrap up session and award giving	College Officiel de Mburabururo	24/03/2017 04:00-05:00 pm

Challenges and way forward

- Due to the flexibility of their timetables, we decide to work with two schools that accepted to cooperate instead of three schools as planned at the beginning. We therefore tried to increase the number of mentors and students to be trained.
- In Rwanda, from the end of March to mid-April, primary and high school pupils are on holiday. We therefore planned to finish the competitions before the end of the trimester. Therefore, our project will continue in May 2017 with the excursion to the park.
