

## Project Update: February 2018

I have to inform you that on the Tuesday, February 13th 2018, our Rufford team (AGIR NGO) has been invited by the Ministry of Environment and Sustainable Development of Benin Republic. We have been identified as a model of eco-citizenship throughout our conservation effort and for citizen's engagement in the conservation programmes since 2014. For this purpose, this certificate is issued to our Rufford team.
