

## Project Update: August 2018

In August 2018, we participated to the Rufford Small Grants conference (RSG) –“Wildlife Conservation Studies across The Caucasus Region”, Georgia, Kazbegi, which was organised by Ilia State University, Ecology Institute and Rufford Foundation.

We had opportunity to share and discuss about our research with other Rufford Grant recipients, to obtain new ideas for our next activities and to make very important collaboration with the other conservationists.
