

Project Update: December 2018

The post-monsoon field survey has been completed. We have conducted a boating survey from Tribeni to Baguban area of Narayani River; that is main dolphin sighting area and cover around 20 km. Two Ganges river dolphins (black and reddish brown colour) were seen by our team in Bhim-bandha area (27.513237, 83.933803) of Narayani River.
