

Project Update: June 2019

I am still collecting data from field visits to the protected areas. The fieldwork required a little more time due to the timing of the local communities in receiving me. I am returning to the university (USA) in August, the idea is to focus on writing and preparing reports. So, I would like to know if it is possible to send the final report in August. Meantime, I am sending a few photos from fieldwork activities.

Extractive Reserve Verde para Sempre:

Left: Workshop with women about forest use. Right: Meeting with forest-based community.

Left: Workshop about community forest use. Right: Workshop about community forest management.

Participatory evaluation
