

Day to day, hunters, poachers and fires are devastating in forest. These anthropogenic activities endanger wildlife by being killed as target, or untargeted animals can be trapped that is extirpating many primates like chimpanzees.

Why humans are doing these? Why people they are not good at us? Let me save my self.

We  
have killed more!!!  
All are ours; today, we are going  
to make more money than  
yesterday! Why not all days are  
the same? But I am afraid, are  
we right with our doings?

This is our  
way of getting money.  
We shall hunt them all,  
regardless of regulations  
and laws.

**This is very terrible for all forest dwellers!!!**

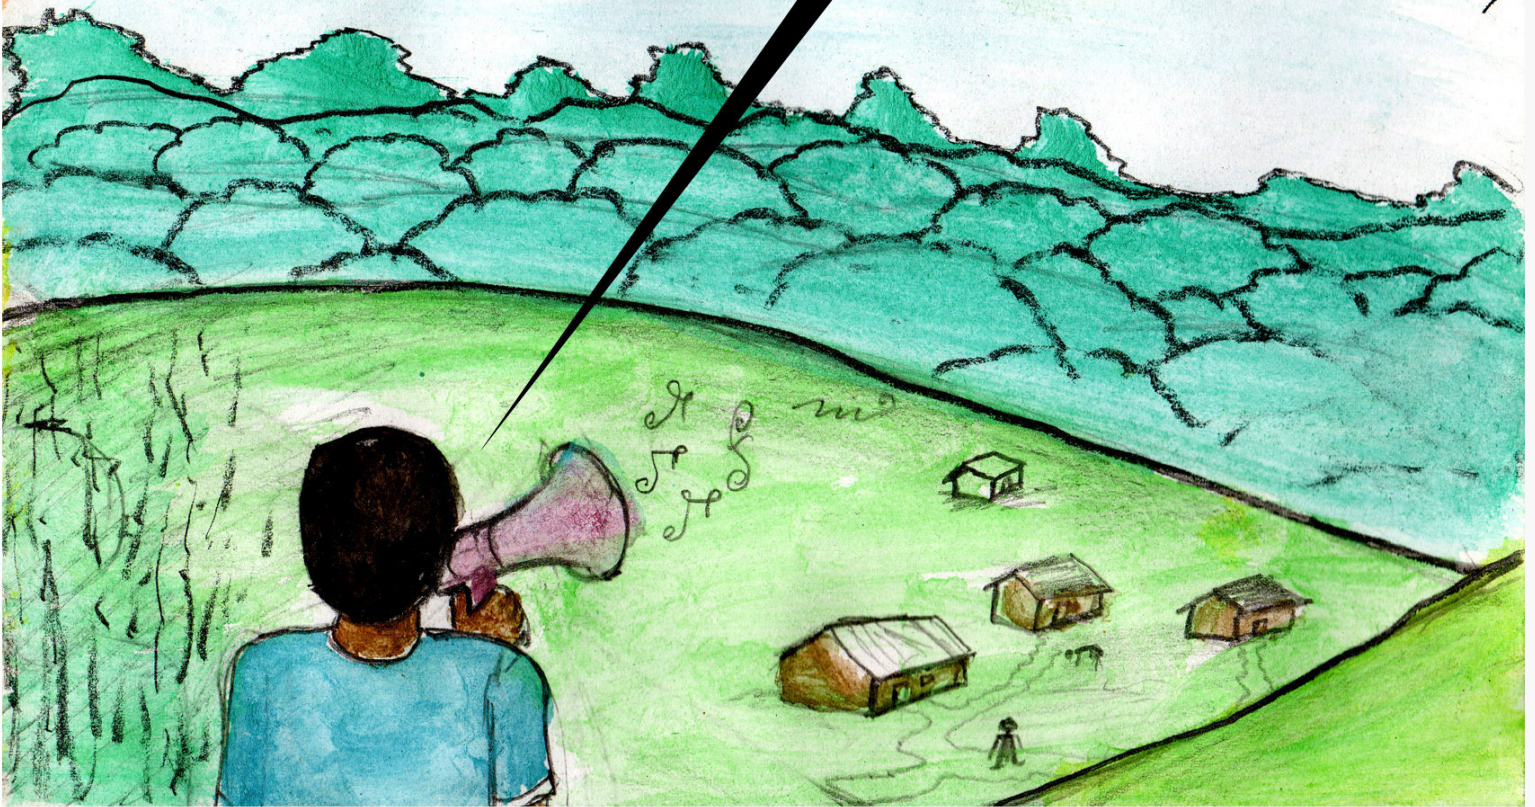

**Yuuuuuuuuuuuh! This is awful!!!!!  
Is there anyone who is hearing us?  
Please come and save us!!!!!!**

**Be sorry!!!!  
Be sorry!!!!!!!!!!!!**

**People of my village! Tomorrow we have a meeting under shine tree!!  
Please come all and not be late!**

**People gathered together dealing with impacts of anthropogenic activities on chimpanzees, and entire forest, and measures of putting them to an end.**

**We have understood how  
important this forest is can  
conserve it.**

**In collaboration with RDB and other conservation partners, people who were poachers, hunters, illegal honey collectors, were trained and become guards and guides.**

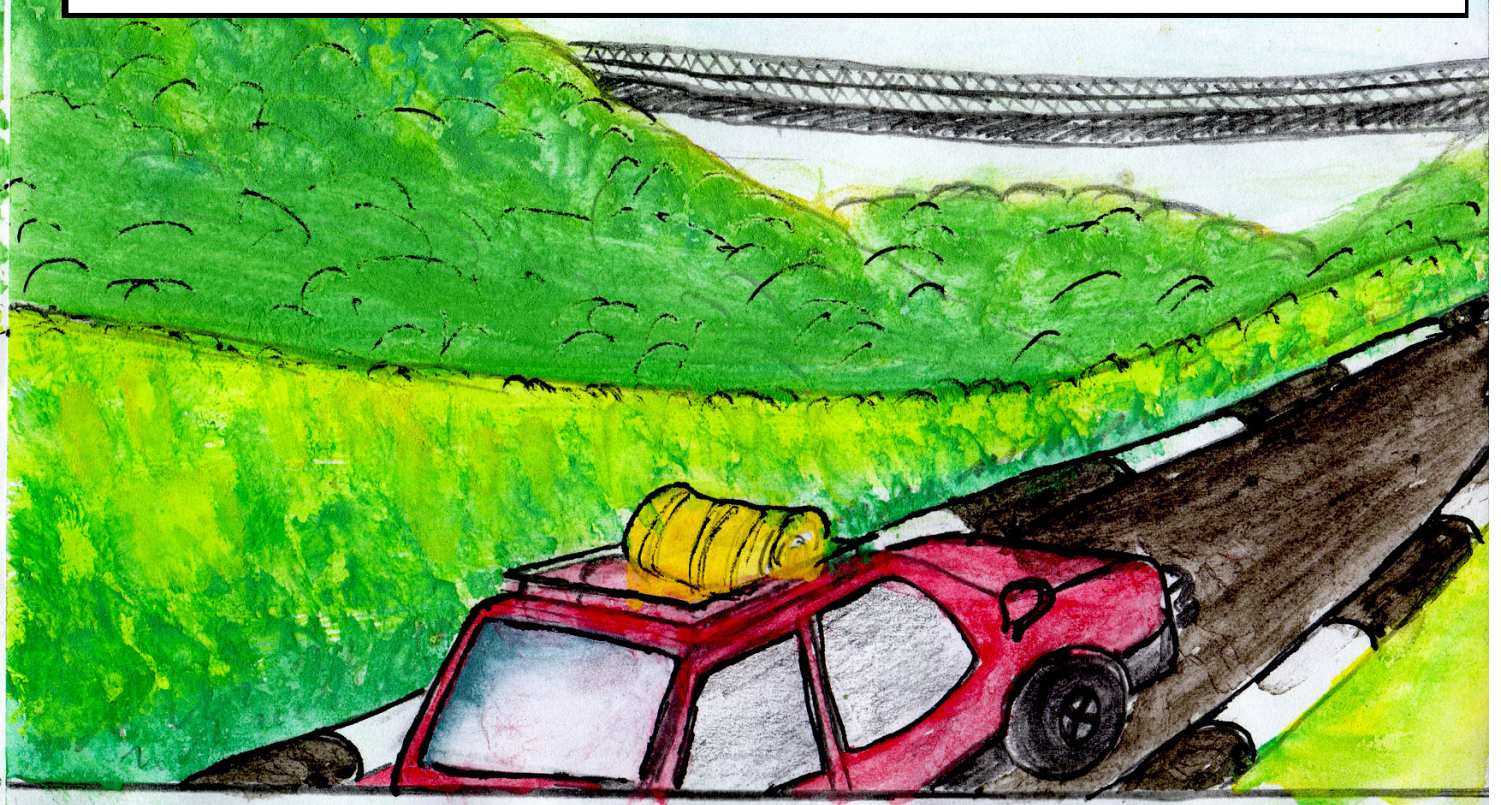

**I am ashamed of being called “Poacher” I am going to be the best friend for them!**

**We are here to tell you that we must protect our forest. This will benefits its biodiversity including chimpanzees. I hope you will benefit also in various ways including improved ecological conditions, tourism revenue sharing, jobs as guides and guards, and even your businesses will develop.**

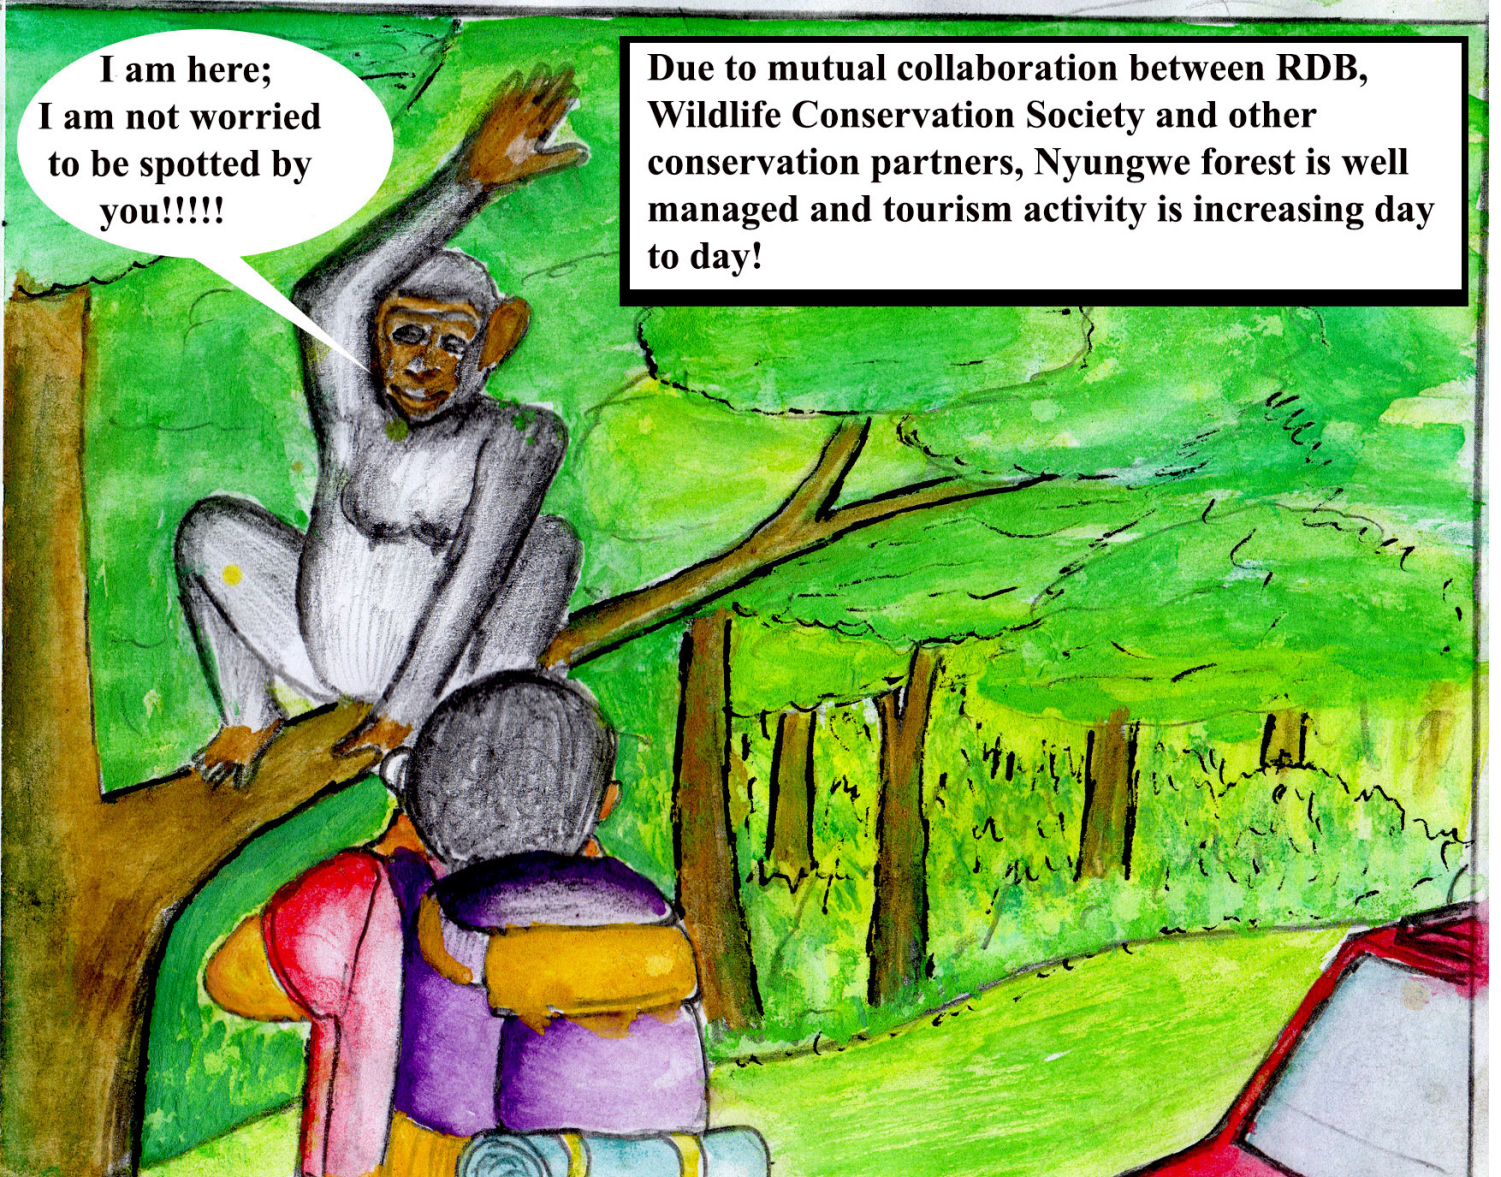

**Canopy walkway was built to ease tourists' access to a large part of forest, and paved roads were built to facilitate in transport.**

**I am here;  
I am not worried  
to be spotted by  
you!!!!**

**Due to mutual collaboration between RDB,  
Wildlife Conservation Society and other  
conservation partners, Nyungwe forest is well  
managed and tourism activity is increasing day  
to day!**
