

Project Update: February 2020

So far, the project is going well. Data analysis task is underway, and the project objective analysis have already been completed right now finalising the last objective. In addition to that I had an amazing Rufford conference that was held in Zanzibar Tanzania from 21st to 22nd February 2020. I had a chance to offer oral presentation and share the project progress with my fellow conference participants, exchange ideas/thoughts regarding the project. Here are some recent photos during the conference.

Receiving certificate of participation during Rufford Small Grants Conference from Rufford Small Grant Director.
