

Project Update: August 2018

We had a drawing competition in Pwe Hla's high school on 13th August 2019 and felt satisfied with the nice drawing picture regarding green peafowl conservation concepts. A total of 100 students (50 from high school level and 50 from middle school level) participated. Please see some activities photo is attached. I will use the winning picture for calendar making and will distribute in all school and nearest villages accordingly.
