

Project Update: March 2021

In the past weeks we conducted two workshops as part of our project. We were able to count on the participation of the manager of the protected area, a local owner interested in creating opportunities for community-based tourism and a professor at the Federal University of Pernambuco (UFPE). In these meetings, fishers were able to ask questions, talk about their experiences and, mainly, create partnerships for the articulation of community-based tourism.

We are very happy with the progress of the project so far.
