

## Final Evaluation Report

---

Your Details	
<b>Full Name</b>	Takuo Jean Michel
<b>Project Title</b>	Conserving bat of Bafoussam (Cameroon West region) "Sacred Forest" through community awareness raising
<b>Application ID</b>	32234-1
<b>Grant Amount</b>	£5,998 0
<b>Email Address</b>	takuojm@yahoo.fr
<b>Date of this Report</b>	20/12/2021

**1. Indicate the level of achievement of the project's original objectives and include any relevant comments on factors affecting this.**

Objective	Not achieved	Partially achieved	Fully achieved	Comments
Communities' sensitisation and training				
Workshop with primary school children and teachers				
Governmental staff sensitisation training				Because of their very busy programme it was not possible to have all of them at the same spot for a training, we were moving from one office to another and sensitise them. we will develop project proposal and secure funding to restore sacred forest adequate bat habitat to date destroyed for human needs. During this phase this aspect will be reinforced.
Bat capture and identification				

**2. Please explain any unforeseen difficulties that arose during the project and how these were tackled.**

At the beginning talking of bats made people scared and it was very difficult at the early stage of the project to organise meetings.

**3. Briefly describe the three most important outcomes of your project.**

- Communities are well aware of the role and importance of bats.
- Primary school children accepted bats as normal animals and organised a bat drawing exercise.

**4. Briefly describe the involvement of local communities and how they have benefited from the project**

The community facilitated by given the contact of the community leader, ideas about bat roosts (abandoned house, tree cavity, etc.), identification of bats capture site and offered guidance to assist the team. The project helps them better understand the ecology, economic importance of bat and specially the implication of sensitisation and various primary school in communities.

**5. Are there any plans to continue this work?**

Given the fact that the population is decreasing due to the habitat lost (caused by urbanisation and building construction), we intend to work on habitat restoration.

**6. How do you plan to share the results of your work with others?**

The master's student will be defending her thesis at the University of Douala. The data collected will be used for a paper that is to be published. Posters and t-shirts produced during the project implementation contributed to the results sharing. The final report will be shared with local government.

**7. Timescale: Over what period was the grant used? How does this compare to the anticipated or actual length of the project?**

The grant was used during the actual length of the project.

**8. Budget: Provide a breakdown of budgeted versus actual expenditure and the reasons for any differences. All figures should be in £ sterling, indicating the local exchange rate used. It is important that you retain the management accounts and all paid invoices relating to the project for at least 2 years as these may be required for inspection at our discretion.**

Item	Budgeted Amount	Actual Amount	Difference	Comments
Per diem of four person (including local guide) at the cost of £5.73 per person for 20 days.	459	459		
Accommodation and feeding of four persons at the cost of £10 per person for 20 days.	400	400		
Travel of four persons in and out of the study area at the cost of £3.96 per person for 20 days.	317	317		
Workshops facilitators	200	200		
Community workshop Sessions	600	600		
School children workshop sensitisation	600	600		
Printing and distribution of Questionnaires	600	600		
Pesola spring balance (60g,100g,500g,)	162	162		
Boots	48	48		
First aid kit	42	42		
Fowler Ultra cal IV electronic calliper 150mm	150	150		
Bleach	24	24		
Digital Camera	305	305		
Leather Gloves	96	96		

Head lamps with spare batteries	160	160		
Mist nets (12x2.8m) with five shelves	335	335		
Printing of 300 leaflet and 20 posters	375	375		
Printing of 150 T-shirts	1125	1125		
<b>Totals:</b>	<b>5998</b>	<b>5998</b>		

**9. Looking ahead, what do you feel are the important next steps?**

Develop a project on habitat restoration to save bat species un the various communities.

**10. Did you use The Rufford Foundation logo in any materials produced in relation to this project? Did the Foundation receive any publicity during the course of your work?**

T-shirt, posters produce and use during the project implementation contributed to the publicity of the foundation.

**11. Please provide a full list of all the members of your team and briefly what was their role in the project.**

**Takuo Jean Michel**, key implementer of overall project activities (Bat capture and identification ....)

**Atagana Patrick** as PhD candidate given full assistance to the involve master student

**Agodigo Ayangma Eugenie Flore** (master student) coordinating questionnaire survey for his master thesis

**Koagne Taba Felix Joel** (Local Guide)

**Mambou Wouembe Aime** (local Guide)

**12. Any other comments?**

Working with local populations to develop project proposal to restore sacred forest adequate bat habitat to date destroyed for human needs.
