

Project Update: June 2023

To conduct the project, we created the brand Proyecto Urabá Bio and divided it into three phases:

1. Interviews with locals.
2. Primate survey.
3. Education activities.

The first phase was completed, and we are currently working in the second phase. In addition, we have a Facebook page and an Instagram account where we share some news related to our work, please visit our social media:
