

## Project Update: August 2010

Some progress has been made of late with the completion of planting 5500 tree seedlings. Thanks to participatory turn out from members of the community (forest users) within the villages of Vekovi, Kai, Wvem, Tashem and Ntor. The Bui Divisional Delegate of Environment and Nature Protection Mr Tume Emmanuel paid a monitoring and evaluation visit.

In the domain of eco-tourism, we had a workshop in the village of Kai, another user village within the BIKOV community forest. Representatives of the user villages alongside elected members of the management team attended the workshop facilitated by Zwinkels Tours Cameroon. Some 49 persons answered present for the workshop.
