

Project Update: September 2009

Five days expedition was conducted in mountains of Hazrati Shoh and Emom Maskara (2000 – 3200 m asl) in Shurobod District and Childukhtaron (1800 – 2800 m asl) in Muminobod district. Seeds of species such as *Ostrowskia magnifica* Regel, *Paeonia intermedia* C.A. Mey and *Tulipa subquanguifolia* were gathered.

In the collection area the following species were introduced:

Bulbous species

- *Tulipa subquanguifolia*
- *Tulipa maximowiczii*
- *Tulipa praestans*
- *Tulipa tubergeniana*
- *Allium rosenbachianum*
- *Allium stipitatum*
- *Allium suworowii*
- *Juno nikolai*
- *Petilium eduardii*

Rhizome species

- *Iris darwasica*
- *Iris hoogiana*
- *Eremurus aitchisonii*

Tuberous species

- *Bunium persicum*
