

Project Update: May 2011

The leaflet describing project activities was published in May 2011. It was distributed among the students of public schools No.1 and No.2 in Borjomi and the administration of the national park. Project staff had a lecture on the threats to the biodiversity of Georgia with students of the No. 3 public school of Borjomi. About 40 students together with their teacher of biology joined the lecture. Their age structure varied from 13 to 17 years. Administration of the Borjomi National Park expressed their willingness to participate in educational programme set in framework of the RSG project. Their representatives have held a lecture on the management of the national park.
