

### **Project Update: June 2011**

From February to June 2011 together with partners we concentrated on strengthening the established school education programme by visiting primary schools. We have had several knowledge exchange sessions on issues of environment in Engaresero, Magadini, Pinyinyi and Monic villages. We also had a study tour to a tourists' attraction site Oldoinyo Lengai (Mountain of God). Moreover, we also cooperatively rehabilitated the footpaths going to the Oldoinyo Lengai and Engaresero catchment.
