

## **Project Update: June 2010**

So far, six sensitization meetings have been held in traditional authorities Lukwa and Kawomba in Kasungu District. In each traditional authority, three meetings were held, one targeting local chiefs and the other two targeting local authorities. The main aims of the meetings were to make them aware of the project, the project goals and expectations, including lobbying for their support. The project team is pleased to report that 95% of the people who attended the meetings were in full support of the implementation of the project and are ready to work with the project team to ensure that the goals of the project are achieved.
